The Assassins Pursued Into the Foothills by a Sheriff's

A little before 7 o'clock yesterday mornslept, the muzzle of a Winchester rifle was thrust through the window and before either of them had an opportunity to utter prayer or protest or to seek safety in flight, the weapon was discharged and the ball went crashing through the cheek of Agent Jobst as he sat on his cot. Then the two murderers entered the station, broke open the agent's cash drawer and transferred its contents, which amounted only t, about \$20, to their pockets. In looking for plunder they missed Agent Jobst's last remitting to the foreign and the bullet three was in the pocket of each as sail buckskin wallet, in one of which was \$9.18 and in the other \$12.50, and one of them carried three writing copy books.

When Mr. Sears, who arrived from Jay

The pursuers being mounted while the fugitives were on foot, it was only a question of an hour or two at the most until the end should come, and it came swiftly and terribly enough, but none too terribly to meet the enormity of the crime that had been committed. Crouching in the guich, with keen marksmen on the elevations on three sides of them, the desperadoes fought to the last. But the long chase they had received had impaired their aim, and so, fortunately, none of their shots reached a human target. A bullet was seen to strike the man who carried the Winchester, and for a moment it seemed as if he would fall, but instantly he recovered, raised his rifle to his shoulder and tried to
